Documents Affected N/A	**Source Nos** (RID, NCR, Action Item, GSFC CCR, etc) or **Tech Reference**

RTM Change ☐ **Start New Baseline** ☐

Problem

SQS Version 2.2.2 regression testing is being conducted on the workstation host "shelby". This machine is used for database prototyping by the Database Development and Management group and has restricted login access. Two additional users need to be given login access to the shelby host for further regression testing of SQS 2.2.2 and the evaluation of the 3.0.1 version.

Proposed Solution

Add the following two user logins to the "dbdm" netgroup NIS file to allow login access to the shelby workstation host.

The login names are "anewton" (Andy Newton) and "jcockey" (John Cockey).
